# Title sponsor Airtel threatens to sever association with Delhi Half Marathon

PRESS TRUST OF INDIA  
New Delhi, November 6

**IN A SURPRISE** move, Delhi Half Marathon title sponsor Airtel on Monday hinted that it may have to stop associating with the event from next year if the "authorities" refuse to address the issue of air pollution in the Capital.

The Indian Medical Association (IMA) has called for the cancellation of the race to be run on November 19, citing high levels of air pollution in Delhi. The organisers, Procam International, responded by terming it "short-sighted" and said they have the support of international athletes.

Airtel, which has been sponsoring the race for the past nine years, said it may have to rethink whether to continue supporting the event if the issue of pollution is not addressed urgently.

"Air pollution poses serious health risks and it is important that these concerns are addressed urgently and appropriately by the authorities for Airtel to continue associating with the event next year and beyond," the telecom major said in a statement.

"Airtel is proud to have made

city. However, as a responsible brand, Airtel is always conscious of any event/media property association. We have received a lot of feedback from our customers and citizens at large expressing concern on holding the marathon in view of the prevailing air pollution in the city," it added.

Airtel said it has discussed the issue with the organisers who have given the assurance that the race will be held with all necessary safety guidelines in place.

"Bharti Airtel has been a strong supporter of the Delhi Half Marathon over the last 10 years, given its positive impact on the city and it being a vibrant platform for all citizens to come together to celebrate the spirit of running.

"For the upcoming edition we have discussed the air quality issue with the organisers, Procam and they have assured us that it is taking several measures to minimise the impact of air pollution on the runners.

"Procam have made sure that the event is consistently conducted as per international standards, with all necessary

of professionals is being deployed by Procam before the race day to sprinkle salt mixed with effluent treated water across the entire track to ensure that the dust pollution is negated. Furthermore, no vehicles will be plying on the

route of the marathon", it said.
